

# IS YOUR WATER HEATER TESTING YOUR PATIENCE?

Water heaters are the second highest energy users in the home. Sooner or later, they wear out. Take advantage of Washington Gas incentives. Replace your water heater now and **save up to \$400**.

## UPGRADE TO AN ENERGY STAR® GAS WATER HEATER.

Gas water heaters that earn the ENERGY STAR label are independently certified to save energy and money. Here's how:

- Gas storage water heaters have better insulation and more secure heat traps, and they use 8% less energy than their standard efficiency counterparts. An efficient water heater can save a family of four up to \$460 over the course of a decade.
- Compared to a standard gas storage model, tankless water heaters can save a family of four up

to \$95 per year on gas bills—\$1,800 over the water heater's lifetime. And they take up less space, too.

## WATCH FOR THE WARNING SIGNS.

If your water heater is 10 years old or older, it's probably heating inconsistently. Warning signs include water leakage, visible corrosion, rust in your water, rumbling sounds and lack of available hot water.

## SAVE ON ENERGY STAR GAS WATER HEATERS.

Avoid the hassle, stress and extra costs of water heater failure. Don't wait to replace your old water heater with a new ENERGY STAR certified model. To help save you energy and money, Washington Gas offers rebates on both storage and tankless models.

ELIGIBLE EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE	MAY BE ELIGIBLE FOR A FEDERAL TAX REBATE*
Storage Water Heater, Tier 1	Minimum UEF of 0.81 <sup>†</sup>	\$200	No
Storage Water Heater, Tier 2	Minimum UEF of 0.87 <sup>†</sup>	\$300	Yes
Tankless Water Heater	ENERGY STAR Certified	\$400	Yes

## GET UP TO \$400 IN REBATES IN JUST THREE STEPS.

1. Find a participating contractor at [WGSmartSavings.com/Contractor](http://WGSmartSavings.com/Contractor).
2. Have your participating contractor install the qualifying high-efficiency heating equipment.
3. Your participating contractor will submit a rebate application on your behalf.

## FINANCE YOUR NEXT ENERGY EFFICIENCY PROJECT.

You may qualify for low-interest loans for recommended energy-efficient improvements. Visit [cealoan.org](http://cealoan.org) for details.

\* Federal tax credits may require exceeding efficiency requirements above. Check eligibility requirements at [energystar.gov/taxcredits](http://energystar.gov/taxcredits).

<sup>†</sup> Uniform Energy Factor (UEF): The higher the UEF value, the more efficient the water heater. UEF is determined by the U.S. Department of Energy ([energystar.gov](http://energystar.gov)).
