

HEATING AND COOLING AT A COMFIER COST.

Heating uses more energy than anything else in most homes, so efficiency really counts. Upgrading to ENERGY STAR® certified equipment is a smart move—and with Washington Gas rebates, you can **save up to \$2,600** right away on a new furnace or gas boiler.

THE SCIENCE BEHIND THE SAVINGS.

Energy-efficient boilers use about 5% less energy than standard models, while energy-efficient furnaces are about 15% more efficient.* Here's why:

- Electronic ignition eliminates the need for a constantly burning pilot light.
- Compared to conventional equipment, new combustion technologies extract more heat from the same amount of fuel.
- Sealed combustion uses outside air to fuel the burner, a safer technology that also reduces drafts.

Bring down energy costs and make your home more comfortable with an ENERGY STAR certified boiler or furnace. Properly installed and maintained, an ENERGY STAR certified boiler or furnace can last up to 18 years.

SAVE EVEN MORE.

You can save \$100 on an ENERGY STAR certified smart thermostat. Monitor and adjust your home temperature remotely anytime, anywhere, right from your tablet or smartphone.

REBATES TO HELP YOU SAVE.

To help you reduce your energy use and utility bills, Washington Gas offers money back on smart thermostats, high-efficiency boilers and high-efficiency furnaces.

ELIGIBLE EQUIPMENT	EFFICIENCY REQUIREMENT	REBATE
Furnace Tier 1	ENERGY STAR Certified and Min. 95% AFUE [†]	\$500
Furnace Tier 2	ENERGY STAR Certified and Min. 97% AFUE	\$700
Boiler	ENERGY STAR Certified and Min. 95% AFUE	\$750
Combination Home and Water Heating Units	Min. 90% AFUE and/or Min. 0.87 UEF	\$800
Smart Thermostat	ENERGY STAR Certified	\$100
Dual Fuel Heat Pump – With Furnace Replace	ASHP: 15.2 SEER2 and 7.5 HSPFs; Furnace 95% AFUE	\$2,600
Dual Fuel Heat Pump – Existing Furnace	ASHP: 15.2 SEER2 and 7.5 HSPFs	\$2,000

Choose a participating contractor for your furnace or boiler tune-up and save \$100.

GET UP TO \$2,600 IN REBATES IN JUST THREE STEPS.

1. Find a participating contractor at WGSmartSavings.com/Contractor.
2. Have your participating contractor install the qualifying high-efficiency heating equipment.
3. Your participating contractor will submit a rebate application on your behalf.
