

KEEP THE WEATHER OUTSIDE, WHERE IT BELONGS.

Whatever the weather, energy-efficient windows and shades make your home more comfortable, retaining heat in the winter, keeping heat out in the summer, and reducing outside noise. Switch to energy-saving windows and window treatments to **save up to \$2.50/sq. ft.**

ENERGY-EFFICIENT WINDOWS: THE INSIDE STORY.

Upgrading to energy-efficient windows and window treatments offers a smart way to reduce energy consumption while enhancing comfort and privacy. These improvements help retain warmth during the winter and block heat in the summer, leading to a

more consistent indoor temperature year-round. As a result, you could lower your energy bills by up to 13% on average, all while enjoying quieter, more private living spaces.
