

HEATING AND COOLING AT A COMFIER COST.

Just like your car needs regular maintenance, so does your furnace or boiler. A tune-up can help you avoid costly repairs or a breakdown this winter. That's why Washington Gas offers **\$100 furnace or boiler tune-up rebates** to keep heating systems running more efficiently and lasting longer.

HOW A FURNACE OR BOILER TUNE-UP BENEFITS YOU.

Your home heating system works hard to keep you comfortable. Over time, it can get bogged down with dust and grime, and essential components can wear out. A tune-up by a trained technician will help make sure that when you turn the heat up, your home heating system is operating at peak efficiency.

MORE EFFICIENT HOME HEATING SYSTEM.

A well-maintained furnace produces and distributes warm air more evenly throughout your home.

BIG SAVINGS.

Tune-ups extend the life of heating equipment and help prevent expensive breakdowns. They may also help reduce your monthly energy bill.

WHAT HAPPENS WHEN YOU GET A FURNACE OR BOILER TUNE-UP?

A furnace or boiler tune-up is a simple way to help make sure your heating system is ready for winter. An approved contractor in the Washington Gas network will come to your home and perform a thorough inspection, along with a number of tests and procedures to make sure your furnace equipment is in optimal working condition. They will:

- Ensure the system is operating safely
- Evaluate efficiency
- Inspect ductwork at furnace for leaks and disconnections
- Clean and adjust critical components
- Check the thermostat and safety controls
- Perform a carbon monoxide test

GET \$100 IN REBATES IN JUST THREE STEPS.

1. Find a participating contractor at WGSmartSavings.com/Contractor.
2. Have your participating contractor complete your furnace or boiler tune-up.
3. Your participating contractor will submit a rebate application on your behalf.*

FINANCE YOUR NEXT ENERGY EFFICIENCY PROJECT.

You may qualify for low-interest loans for recommended energy-efficient improvements. Visit cealoan.org for details.
