

Terms and Conditions and Payment Release Authorization Form

Maryland Terms and Conditions

Washington Gas issues rebates to Maryland residential customers or preapproved participating contractors on behalf of their customer in the form of a check sent to the designated recipient listed on the application. Rebate checks are valid for 120 days. A rebate shall not exceed the total cost of the equipment purchased. Rebates will not be issued as credits to utility bills. Payment of the rebate by Washington Gas does not warrant the performance of the installed equipment or service and does not warrant the equipment will deliver any specified amount of energy or cost savings. The customer shall independently evaluate any information related to the qualifying equipment.

This rebate offer is available to all Washington Gas Maryland residential customers and preapproved participating contractors for equipment installed while program funds are available. This rebate offer is not valid for commercial properties or new home construction. Qualifying equipment must be new and installed by a preapproved licensed participating contractor in residential dwellings within the Washington Gas Maryland service territory prior to submitting a rebate application. Not all ENERGY STAR® certified models qualify for a rebate. Models that do not meet rebate qualifications will not receive a rebate. All work must comply with federal, state and local codes and requirements. Qualifying equipment and services and a list of preapproved, participating contractors can be found online at WGSmartSavings.com.

In no event shall Washington Gas, its parent company, affiliates, subsidiaries, officers, directors, employees, agents or contractors be liable for any incidental, special or consequential damages whatsoever, arising out of or related to the rebate program, even if advised of the possibility of such damages. Neither Washington Gas nor its parent company, affiliates, subsidiaries, officers, employees, agents and its contractors make any warranty, expressed or implied, or assume any legal liability or responsibility for the accuracy, completeness or usefulness of any information, estimated savings, benefits, products or process disclosed, or represent that its use would not infringe on privately owned rights. Neither Washington Gas, its parent company, affiliates, subsidiaries, officers, directors, employees, agents or contractors is responsible for any misinformation supplied by the equipment supplier or participating contractor relating to the amount and/or conditions of the actual rebate. Washington Gas will not pay rebates for efficiency products or services that are mislabeled or misrepresented by the equipment supplier or participating contractor regarding rebate qualifications. Washington Gas is not obligated to approve any rebate application that may result in Washington Gas exceeding its program budget.

Washington Gas and its consultants and contractors have the right to refuse service when confronted by a customer acting inappropriately or when facing a situation deemed potentially unsafe or harmful to health or well-being, as may be determined by Washington Gas, its consultants or contractors in their sole discretion. For greater clarity, "inappropriate" includes but is not limited to the following: unreasonable demands for service, personally threatening or offensive language, threatening or erratic behavior and personal contact. Washington Gas and its consultants and contractors reserve the right to exclude any premises, or vicinity therein, deemed potentially unsafe or harmful to health or well-being.

Reference to any specific commercial project, process or service by trade name, trademark, manufacturer or otherwise does not necessarily constitute or imply endorsement, recommendation or favoring by Washington Gas, its parent company, affiliates, subsidiaries, officers, employees or its contractors.

Washington Gas must receive the rebate application and all required documentation within thirty (30) days of equipment installation. Please allow six (6) to eight (8) weeks for rebate payment. Payment processing may take longer if information is missing from the application. Please visit WGSmartSavings.com or call **1-833-286-0860** if you have questions about your rebate.

I have read and understand the terms and conditions above. I certify that the information I am providing is true and correct and the product(s) and/or equipment for which the application is being submitted meets the requirements in the application.
